This is a strong recommendation for the design staff and construction team of Capital Construction. In particular, Katie Choi has worked with us to guide us as we chose to have your company paint and update our condominium. Her suggestions and knowledge made this upgrade effortless and excellent in all details. Katie helped us to select the proper materials for walls, cabinets, and colors.

Previously Capital helped us to install new windows and refinish our living room ceiling. That project was also handled with professionalism with outstanding results.

Capital Constructuion is efficient, reasonably priced, and provides excellent value and service throughout the updating experience. I recommend them to anyone considering their services for their house and rooms therein. Capital is ready and willing to assist.

Our condominium will soon go on the market. Capital Construction has helped us to put our best foot forward.

Regards,

David H. Cooper
