Dear Jun

I wanted to take this opportunity to thank you, your construction crew and Capital Construction for the excellent work that was done on the re-siding, gutters, wood screen wall, and fascia trim of my home. The workmanship and attention to detail was far superior to any work that I have seen in the past. Being on the design side of the commercial construction business, I have had the experience with other contractors during the construction of many projects and it was a pleasure to have such an open dialogue with you on several of the complicated details. I am looking forward to our next project together.

Sincerely,

Jerome Rasgus
