To Whom It May Concern:

It is with great pleasure that I write to you in recommendation of Capital Construction of America, Inc. They have been providing our company with excellent siding installation since 2005 when we decided to offer fiber cement siding to our new home customers.

In our dealings with Capital Construction, they have always been pleasant and extremely professional. Our jobsite Superintendents have been satisfied with the quality of their workmanship and their ability to adhere to our tight schedules. Should there ever be an instance where a correction needs to be made (which is very rare) to a siding installation, Capital Construction is more than happy to come back quickly and do whatever is needed for our complete satisfaction. I also have personal experience with them as they recently installed Fiber Cement siding and trim on my personal residence. Like they have for our company's homes, Capital Construction completed their work expertly and in a punctual manner. We are very pleased to be working with them in our effort to build beautiful and cost-conscious homes for our customers.

Please do not hesitate to call me with any questions.

Best Regards,

M. Trent Sorensen
Assistant Vice President
