**Sterling, VA 20166**

**Dear Mr. Cho,**

I would like to express my appreciation to Capital Construction of America for the quality work recently completed to our residence. After reviewing several proposals from other firms, my wife and I decided to put the renovation work to our town home in the hands of your organization. Mr. Erick Kim and his staff went the extra mile, taking time to understand our home improvement vision and provided expert advice throughout the lifecycle of our project. Mr. Kim offered us the flexible schedule, pricing, and promise of a quality product we were looking for from a general contractor. After completion, our new hardwood flooring, finished basement, and updated kitchen exceeded expectations and added warmth and value to our home.

Thank you again for your company's excellent work. I will be sure to recommend your organization to my friends and call upon Capital Construction of America again for future projects.

Sincerely,

  
Scott M. Ryman
